

Keep School

Pools Open

The province must pay for these valuable resources and keep them open.

After years of debate, the Toronto District School Board has voted to close 39 of their aquatic facilities. It is not too late to save these pools though if we actively fight this decision!

Closing these pools would:

1. Endanger the lives of students in a province full of natural water ways.
2. Keep the community out of facilities that their tax dollars have paid for.
3. Impact the physical health and fitness of our children.
4. Reduce the number of highly qualified staff in the schools who are trained to handle emergencies.

YOU MUST ACT NOW !

Call your MPP and demand provincial funding for the pools.

Call your Trustee and tell them to support your pool.

Attend the Committee Meetings and present your views and speak your mind.

Safety First Or Budget First?

Our students deserve to be safe
